A LICENSE PROPOSAL IS PASSED

Will be Up to the Voters of Ohio to Accept or Reject

WOULD LIMIT SALOONS

To One for Every 500 of State's Population—Other Features of Measure.

- License Clause Features.
- Retention of all existing liquor laws.
- Saloons limited to one for each 500 of population.
- License to aliens prohibited.
- License automatically revoked on second conviction for violating regulatory laws.
- License must be of good moral character and an American citizen.
- Ownership of license, restricted to one for each person, individual or corporation, and in test forbidden in second or other licenses.
- Municipalities authorized to limit the number of saloons, having regard for the overhead restriction of one to each 500 of population.
- Voters to affirm or reject this proposition, a vote in the negative to be counted for the present constitutional clause.

Columbus O., March 6.—If the voters of Ohio adopt the liquor license proposal accepted by the Constitutional Convention, the retail liquor business in Ohio hereafter will be subject to strict regulation.

The clause decided upon was a composite one, which bears the name of Delegate D. F. Anderson of Youngstown, a strong advocate of stringent supervision.

It contains the home-rule delivery of the middle-of-the-road clause of the convention in that it gives to municipalities the right to limit the number of saloons within their borders. In turn this limitation is itself restricted to one license for each 500 of population.

There is a strong prohibition against the brewery-owned saloons, the licenses being made individual as far as possible, and revocable upon the second violation of regulatory laws.

The adoption of this clause came after a long and wearying struggle, that has lasted for weeks, almost without cessation. When the final vote was taken it was decisive, being 91 for the proposal to 18 against it.

This division does not, however, represent the attitude of the delegates toward several of the internal clauses of the proposal. For instance, the limitation of saloons to one for each 500 was adopted by a vote of 60 to 46. The supporters of the restrictions have a bare majority of the convention.

On a motion to strike out the penalty of the revocation of the license upon the second conviction 80 opposed it and 28 favored it. A motion to open wide the limitation of saloons in municipalities was lost, 67 to 38.

The negative vote of the final question, if it can be construed as indicative of anything, shows that even with all the safeguards the proposal is not satisfactory to the extreme temperance supporters.

The few wet votes recorded against it represented the protest of delegates who were opposed to placing legislative provisions in the constitution, because of the effect upon the future when different conditions might require changes in the regulatory statutes.

While accepted by the liquor people upon the ground yet it is known that the adoption of the amendment limiting the number of retail places was most distasteful to them. They favored the middle-of-the-road proposition offered by the conference of conservatives, which placed the authority in the hands of the municipal authorities themselves.

Through the foresight of Judge William Worthington, of Cincinnati, the question was submitted in such a manner that the people will not have to choose between the present system and the proposed new regulations. They will vote only upon the question whether the license system shall be approved or rejected, and if it fails the present clause remains unchanged. This is as it should be, but it was necessary to make several important changes in the pending proposal.

DIRECTOR WAYNE COLLIER CHARGES ATTEMPT WAS MADE TO BRIBE CITY OFFICIALS

Declaring that a bribe of \$200 per month had been offered to Mayor Francis M. Swartz and a similar offer of \$100 per month to Safety Director Wayne Collier, if the administration would permit gambling games to run as in the past, the director today authorized the statement that the matter had been brought to the attention of the common pleas court and was in the process of being investigated.

The statement was made Wednesday afternoon in the office of the chief of police, in the presence of Chief Blizard, F. A. Woolson, of the Advocate, and H. H. Scott, of the American Tribune. It followed a reference made to the talk made by Safety Director Collier at the Board of Trade banquet last Thursday night. Mr. Collier's statement at that time was in effect as follows:

"In view of certain events in the past few days I believe that when the present administration is ended people will have learned that there are some men who have no price."

Mr. Collier's statement today went more into details, though he declined to make public the names of those who offered the bribe.

"The fact of the matter is," said Mr. Collier, "within the past week or ten days Mayor Swartz was offered the sum of \$200 per month if he would permit the gambling rooms to run as they had in the past. I was offered \$100 per month for my share in it and I am not able to say what the chief has been offered."

"There is a condition existing in Newark today which emphasizes the fact that this is no time to play party politics. A certain faction in this city has in the past dominated the nomination of candidates for municipal offices and has dictated to the administration."

"The administration will not be dictated to and will administer the affairs of the city without regard to politics or class. There is not a day passes, but what some one seeks the officials and asks for some special privilege."

"The men who offered the bribes to the mayor and myself are known as having formerly run gambling games. I cannot make public the names, as the matter has been referred to the common pleas court and the publication of the names might interfere with the court in its investigation."

Mr. Collier followed this statement with one regarding the matter which was discussed at Monday night's council meeting, when reference was made to the February payroll of the police department, in which some of the officers were docked for time off on account of illness, while others were allowed full time. Mr. Collier said:

"In your paper Tuesday, there appears, as the article read, 'Some pertinent questions were asked by the president of the city council concerning certain favoritism purported to be shown in the fire and police departments.' I could not be present at this meeting, and I want to say that no favoritism has been shown in either department and there will be none. These questions, seemingly, were asked in a way to discredit the head of the department, and is a result of some petty jealousy prevalent in the department, augmented by outside interference."

"There never has been any 'divvy' of fines. The officers receiving any money receive same as witnesses, just the same as any other individual, and then only in state cases."

"As to Captain Swank receiving full time during February, this officer had due him more over-time than the time off would amount to, and by agreement of the chief it was settled by paying the full month's salary."

"As to any department, only those who will be paid who have complied with the statutes."

the ordinances, which require satisfactory proof of being disabled in the discharge of their duty, and this evidence supported by a doctor's certificate. The men have all been notified of this ordinance and are familiar with it.

"There are some men in Newark who are not willing to acknowledge subservience to law and failing to succeed in several other ways, are willing now to endeavor to discredit and ridicule honest attempts to administer decent government. I will be dictated to by no one except the mayor and I have known him long enough to feel assured that he has the best interests of the people of Newark in mind all the time. These same men have but one thing in view, selfishness regardless of party politics, and we have decided that our object is a good government regardless of party politics, if it is only for two years."

Mr. Collier's statement today went more into details, though he declined to make public the names of those who offered the bribe.

SMILEY READY TO TESTIFY

Jury in the Legislative Bribery Case Inspects "Dictagraph Rooms"

PROSECUTOR'S ADDRESS

Followed by Attorney for Senator Andrews and Taking of Testimony Begins.

Columbus, March 6.—Following an inspection of the hotel rooms alleged to have been the scene of the passage of \$200 bribe money from the Burns detectives to Andrews, the case against Senator Andrews was commenced by the jury sitting in the case, in the criminal court of Franklin county, and the taking of testimony was commenced. W. D. Gosliorn, clerk of the senate during the last general assembly, was called to the stand.

Immediately after the opening of court, the prosecution announced that Frank Harrison Smiley, the detective who is alleged to have trapped Senator Andrews into accepting the bribe to secure the passage of an insurance measure, was in the city, having arrived on an early train from Philadelphia. The jury was at once sworn and was taken to the hotel to visit the scene of the alleged wrong-doing. Upon the return, Judge Dillon opened the case. The opening statement was delivered before the jury left on its tour of inspection.

The first of the accompanying pictures will be recognized as that of Mr. and Mrs. William Christian, two of this city's most esteemed residents, who were married in this city fifty years ago today and who tonight will celebrate the happy event with an elaborate dinner to relatives and friends.

The picture was taken a few days ago, while the lower was taken in 1865, three years after their marriage, and shows the couple with their son, William C., former public service director and at present connected with the Newark Trust Company. The many friends of Mr. and Mrs. Christian will extend congratulations and wish them many more wedding anniversaries.

ROAMING THROUGH COUNTRY

Chinese Mutineers Driven From Cities Murder and Pillage

HUNDREDS OF CORPSES

Seen Floating Down West River -- Whole Families Slaughtered.

Peking, March 6.—The mutineers dispersed and driven from the larger cities, are roving the country as bandits, murdering, pillaging and looting. They are committing horrible atrocities, slaying whole families and inflicting upon their victims almost unbelievable cruelties.

Hundreds of corpses have been seen floating down the West River, near Hongkong, the hills of which are being strongly fortified.

The authorities have at last gained the upper hand in Canton, which has been a scene of bloodshed and riot the last few days.

Three thousand soldiers have been mustered out of the army. Several prominent persons have been assassinated in Peking.

Every effort is being made to subdue the desperadoes, but owing to the wide areas which the bands are infesting, the authorities are making practically no progress outside the cities.

The French flagship arrived at Hongkong yesterday and a British battleship is expected there today. It is probable that the Powers will take entire charge of their rivers in Southern China. Traffic on the West River is moving under the protection of gunboats.

Three battalions of Japanese troops arrived at Tientsin last night to reinforce the garrison and all the German troops stationed along the railroad between Tang-Shan and Peking have been withdrawn to this city.

Two United States gunboats have been ordered to proceed from the Yangtze River to Taku, at the mouth of the River Pehlo, 30 miles southeast of the city.

The gunboats will keep the mouth of the river open, and at the same time be on the alert for further disturbances within the city, which is now comparatively quiet.

Several pillaged shops today displayed signs "Already looted." Dr. Sun Yat Sen and his advisers have decided to move from Nanking to Peking, and make that city the temporary capital. This move, it is believed, will restore order in Peking and vicinity. The officials will be accompanied by 2,000 picked troops and a body guard of a hundred men.

Probably the first act at the new capital will be to inaugurate Yuan Shi Kai as president.

The transfer to Peking will be begun immediately after the return here of the four southern delegates, who have been in consultation with Yuan, who is said to favor the move.

Three companies of Russian troops started yesterday from Harbin for Tientsin, in compliance with the request of the Russian Consul in that city.

Heads still hang warningly on tripods here and there in the streets of Peking, although some of the bodies have been removed and buried.

The daily marches of detachments of troops from the various legations through the streets of the capital are having a certain moral effect, but the stores will conduct their business cautiously through small windows. The farmers from surrounding districts are not bringing in much produce, and consequently prices are rising.

The soldiers of the various divisions of the Chinese army continue to squabble, and it is thought there is danger of one division attacking another. Some of the officers are haranguing and endeavoring to pacify the men, but it is reported that many of the officers were among the looters.

A letter from a missionary at Hwang-Hsien, near Shi-Fu, received here, states that the Imperial troops put out the eyes of 40 Christian converts and then beheaded them, saying that they were naturally rebels.

Looting which has been going on at Pao Ting Fu throughout the day ceased when night fell, but continues in neighboring villages. Many wounded have been brought into the American Mission Hospital.

The business section and part of the residential quarter has been burned. Foreigners are all safe. Many Chinese who had out of their queues were killed Friday, but no further murders have taken place.

It is believed that complete order will soon be restored if the mutinous soldiers who departed for various destinations do not return.

PRESIDENT'S WIFE JOURNEYS THROUGH A SNOW STORM TO ATTEND LAWRENCE HEARING

Washington, March 6.—Mrs. Taft, wife of President Taft, again attended the hearing before the rules committee of the house on the situation at Lawrence, Mass. Mrs. Taft journeyed up the hill through a snow storm to be at the hearing. Ten wives of as many congressmen were present as was the daughter of J. Pierpont Morgan.

C. F. Lynch, commissioner of public safety at Lawrence, resumed the stand and told of lending personal financial assistance to some of the parents who did not send their children away.

"Did the city authorities and citizens of Lawrence attempt to effect a settlement?" asked Representative Hardwick.

"Yes, sir," he replied, "the city government commission met with a strike committee and tried to arrange a meeting with the mill owners."

The police had instructions to see that the children leaving Lawrence had the written consent of their parents, according to Lynch.

PENNSY ASKS COUNCIL TO BE PATIENT UNTIL SUBWAY PLANS ARE FORMULATED

Because it requires so much time for the two railroads concerned in the plans for grade crossing elimination, the Pennsylvania railroad has asked the city council to be "patient a little while longer," when the two companies hope to agree on plans and estimates for the proposed improvement on the right of way through Newark.

Clerk Franklin of the city council, has received a letter from W. C. Cushing, chief engineer, maintenance of way, of the Pennsylvania lines west of Pittsburgh, acknowledging the receipt of a letter written by Mr. Franklin Feb. 14.

No word has been received from the Baltimore & Ohio R. R. with reference to the plans, but as the two roads are working jointly on the plans for the subways, it is presumed that both will submit the plan at the same time. The letter to Mr. Franklin follows:

Mr. Harold G. Franklin, Clerk of Council, Newark, O.:
Dear Sir: With reference to your letter of Feb. 14, we are very sorry we have been unable yet to present plans and estimates for the track elevation through Newark as required by council's ordinance, but we hope to come to some conclusion with the Baltimore & Ohio railroad, and will communicate with your city engineer as soon as possible. We trust you will be patient a little while longer, but owing to joint ownership through Newark and the unusual amount of time necessary to carry on negotiations between the two companies, we have been delayed. Yours truly,

(Signed) W. C. CUSHINGS,
Chief Engineer M. of W.

EIGHTEEN MORE MEN ARE WANTED TO MAKE 800

The Board of Trade needs 18 more members to reach the 800 mark. Five new members were received Wednesday morning, making a total of 782. Three of the five just enrolled were secured by three men who joined the organization two days ago.

You are invited to telephone your membership to the Board of Trade or hand your name to any one who is wearing one of the Newark booster buttons: "I am one of 1000 men wanted by the Board of Trade." The complete list of members will be published soon. Names not previously announced are:

Fitzgibbon, Wm J Johnson, Dr E. T. Williams, Dwight Brown, J. C. Scott, Chas W.

SNEAD KILLED BY AN EMPLOYEE

Georgetown, Texas, March 6.—John T. Snead was killed by one of his employees, O. R. Hilliard. He said he fired the shot for revenge. John T. Snead is the father of J. B. Snead, lately on trial for the killing of A. G. Boyce. The first affair was a sequel to the element of Capt. Boyce with Snead's wife. It is believed this later crime grew directly out of the Boyce-Snead feud.

KILLED DIVORCE WIFE AND TURNS WEAPON ON SELF

Fremont, March 6.—Henry Dorman shot and killed his wife in the street here early today and then committed suicide by firing a bullet into his brain. Mrs. Dorman recently obtained a divorce from her husband. After eating his breakfast Dorman went to the front of the hotel where he awaited the passage of his wife on her way to work at a restaurant. Seeing her coming he rushed out onto the street and fired two shots and then turned the gun on himself. Mrs. Dorman lived but a few minutes and he died instantly. Dorman was recently incarcerated in the Toledo workhouse for intoxication and for beating his wife. While he was behind the bars his wife obtained a divorce.

QUIET AMONG THE STRIKERS

Lawrence, Mass., March 6.—Comparative quiet prevails among the strikers in the early hours preceding the opening of the textile mills today, in spite of the return of the loom fixers to work who voted last night to accept the 5 per cent increase offered by the mill owners. Although twelve arrests were made before 7-30 o'clock all were for minor offenses and half or those in custody were women who carried a preparation of mixed pepper, sand and spices.

MET DEATH ON GRADE CROSSING

Oak Harbor, O., March 6.—Harry Rau and Charles Robidue were instantly killed when the buggy in which they were riding was struck by an east-bound passenger train on the Lake Shore railroad at Rocky Ridge last midnight. Rau's body was thrown to one side but Robidue's body was caught by the pilot of the engine and a part of the body was carried to the station here when the train was stopped and relieved of its grewsome cargo.

Saved From Dangerous Operation—Neighbor Advised What To Do For Bladder Trouble.

I, too, wish to add my testimonial to the thousands you no doubt have, and will tell you what your great medicine did for me.

Several months ago I was taken very sick with bladder trouble, had intense pains and suffered greatly, at times I could not stand on my feet or sit in a chair and often was forced to cry out with pain.

I consulted two doctors, who gave me different kinds of medicine, which did me no good. It seemed as though the more of their medicine I took, the worse I became. The doctors seemed to be greatly puzzled over my case and after holding a consultation, I was told that I had a severe case of inflammation of the bladder and an operation was very necessary.

I was being prepared to be taken to the hospital, when a neighbor came to my house and said, "Why don't you try a bottle of Dr. Kilmer's Swamp-Root?" I was willing to try anything to get relief from my suffering. My wife bought a bottle of your medicine, which I began taking, and soon noticed a change for the better. I continued taking it and got better right along, my appetite returned and I was able to resume work.

I have used about fourteen bottles of Swamp-Root and know that had I not taken it I would have been operated on and perhaps never recovered. I never fail to tell my friends about Dr. Kilmer's Swamp-Root, as I know it will save many people from suffering and perhaps as in my case, a dangerous operation. Yours gratefully,

SAUEL WILSON. 651 Pierce St., N. E., Minneapolis, Minn.

Personally appeared before me this 24th day of September, 1908 Samuel Wilson, of the city of Minneapolis, of the State of Minnesota, who subscribed the above and on oath says the same is true in substance and in fact.

M. M. KERRIDGE, Notary Public. Commission expires March 26, 1914.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. I will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention the Newark Daily Advocate. Regular fifty-cent and one dollar size bottles for sale at all drug stores.

AMUSEMENTS

Last Night's Play.

The Nancy Boyer stock company had for Tuesday night's bill, "Love Watches." This play was a former starring vehicle for Miss Billie Burke, but on Tuesday evening it seemed to drag. Miss Boyer played the role formerly assumed by Miss Burke and during the trend of the play wore some very pretty costumes.

Mr. Chatterton again appeared in support of Miss Boyer, but he had very little opportunity to show ability, for very little was offered in the character of Count Andre.

In the few years just past, Miss Boyer has been unfortunate in the women of her company, but this defect seems to be happily remedied. Miss Glen Argoe is a very pleasing addition to the company and plays her parts very cleverly. Miss Rose Cameron is also an actress of ability. Edward Barton's work is always a pleasure, for Mr. Barton has a very keen insight to character acting, and gives real worth to his portrayals.

The company tonight plays an old favorite, "When Knighthood Was in Flower."

Press Agent Says:

This evening, "When Knighthood Was in Flower," the first of Miss Boyer's feature productions, will be presented, which affords a rare opportunity in which to emphasize her particular talents as a comedienne. Mary Tudor, the mad

cap princess, is a sweet and charming little personage, who changes her mind as often as she takes a breath, who has a war of her own, and chooses to do as she pleases, no matter whom it may discommode, her open defiance of her brother, Henry the VIII, which was the subject of universal scandal in the sixteenth century court circles, has been most well described in the story and with dainty sparkling Nancy assuming this nervous defiant role one may easily imagine the delightfully interesting moments in the play.

Mr. Chatterton, Mr. Willard, Miss Cameron, Miss Nelson, and Miss Argoe, as well as Messrs. Barton, Hyde, Reeves, Lynch, Ryle, and Van Etten, are all well cast, the entire strength of the company being called into action in the presentation of the best of all Julia Marlowe's successes.

Thursday afternoon, "The Frisky Mrs. Johnson," is underlined and on Thursday evening, "The Heart of Springtime" will be produced.

The Orpheum. Another good bill is booked for the Arcade theatre the last half of the week. Stayman & Hayden, comedy musical artists, head the list with an act full of life and ginger. Cummings & Norton have a good sketch, "The Girl and the Traveling Man," which is said to be very good. Joe Daniels, impersonator and monologist, introduces some original comedy and clever songs. The Zobinos, exponents of physical culture, have and original novelty, and perform some difficult and interesting feats. There will be a new picture.

Mr. and Mrs. David Haden of Newark and Mr. and Mrs. Frank Farquhar of Johnstown are guests of Mr. and Mrs. Gaird Dugan Tuesday night.

Mr. Jacob Rinehart of Newark spent from Wednesday till Friday with relatives here.

Mrs. Jay Frampton and daughter Doris spent Thursday with her parents, Mr. and Mrs. E. D. Rinehart.

Mr. Clarence Dugan of Conesville spent part of last week with his parents, Mr. and Mrs. George Dugan.

Mrs. Howard Miser and Miss Otta Oxley were guests of Mrs. Lester McCament Friday.

Stops Lameness SLOAN'S LINIMENT

Sloan's Liniment is a reliable remedy for any kind of horse lameness. Will kill the growth of spavin, curb or splint, absorb enlargements, and is excellent for sweeney, fistula and thrush.

Here's Proof. "I used Sloan's Liniment on a mule for high lameness, and cured her. I am never without a bottle of this liniment; have bought more of it than any other remedy for pains." BAILY KIRBY, Canby, Ky.

"Sloan's Liniment is the best made. I have removed very large shoe boils off a horse with it. I have killed a quarter crack on a mare that was awfully bad. I have also healed raw, sore heels on three horses. I have healed grease heel on a mare that could hardly walk." ANTHONY G. HAYNE, Oakland, Pa., Route No. 7.

SLOAN'S LINIMENT is good for all farm stock.

"My horse had got cholera three days before we got your liniment, which I was advised to use. I have used it now for three days and all my horse is almost well. One hog had a sore on his neck. I got the liniment, but I did not use any more."

FOR THE BLOOD CURES RHEUMATISM

Rheumatism is one of the oldest of human ailments, and yet the causes which produce it was a question long in doubt. It was thought at one time to be a disease of the bones entirely; its origin was also attributed to some specific affection of the nerves, and various other theories which proved to be wrong, were put forward in an effort to find a cure for the trouble. Under these conditions the treatment of Rheumatism was very unsatisfactory and only of a temporary nature. When it was determined beyond doubt that Rheumatism is a blood disease, brought about by an excess of uric acid in the circulation, then its cure became a matter of purifying the blood and thus destroying its source. Because it is the best of all blood purifiers S. S. S. has been the most successful of all treatments for Rheumatism.

When this uric acid gets into the circulation it causes a partial fermentation of the blood, which changes it from a thick, rich stream, to a thin, acid fluid, whose nourishing properties are greatly impaired. Through the circulation the uric acid is carried to every muscle, joint and nerve of the body, and then the pains and aches of Rheumatism commence. The longer the blood is allowed to remain in this acid, weakened condition the more severe will the disease become. Gradually the muscles harden and lose their elasticity, the joints begin to stiffen, and frequently calculus deposits collect and form knots at the finger joints.

The pains of Rheumatism may often be temporarily relieved by the application of hot cloths, liniments, plasters, etc., but as such treatment does not reach the blood, no one should expect permanent benefit from it.

There is just one way to cure Rheumatism and that is to purify the blood of the uric acid. S. S. S. does this more quickly and certainly than any other medicine. S. S. S. eliminates this uric acid because it is the most penetrating of all blood remedies. It is made entirely of roots, herbs and barks compounded and scientifically blended in such manner as to make it a medicine that acts through the circulation with good effect on every portion of the system. S. S. S. cures Rheumatism permanently because it removes the cause on which the disease thrives. S. S. S. contains no harmful minerals, it is perfectly safe for every one. Write for our special book on Rheumatism and learn of the great success S. S. S. has had in curing it. Any medical advice desired will be furnished you. No charge for the book or advice. S. S. S. is sold at drug stores.

THE PRODIGAL JUDGE

CHAPTER XVIII.

Betty Leaves Belle Plaine.

Hannibal had devoted himself loyally to the judge's glorification, and Betty heard all about the letter, the snuffing of the candles and the reward of five thousand dollars. It vastly increased the child's sense of importance, and satisfaction when he discovered she had known nothing of these matters until he told her of them.

"Why, where would Judge Price get so much money, Hannibal?" she asked, greatly astonished.

"He won't have to get it, Miss Betty; Mr. Mahaffy says he don't reckon no one will ever tell who wrote the letter—he loves the man who does that will keep pretty mum—he just doesn't tell!" the boy explained.

"No, I suppose not," and Betty saw that perhaps, after all, the judge had not assumed any very great financial responsibility.

"He can't be a coward, though, Hannibal!" she added, for she understood that the risk of personal violence which he ran was genuine. She had formed her own unsympathetic estimate of him that day at Boggy race-track; Mahaffy in his blackest hour could have added nothing to it. Twice since then she had met him in Raleigh, which had only served to fix that first impression.

"Miss Betty, he's just like my Uncle Bob—he ain't afraid of nothing! He takes them pistols of his—loaded—if you notice good you can see what they bulge out his coat!" Hannibal's eyes, very round and big, looked up into hers.

"Is he as poor as he seems, Hannibal?" inquired Betty.

"He never has no money, Miss Betty, but I don't reckon he's what a body would call poor."

It might have baffled a far more mature intelligence than Hannibal's to comprehend those peculiar processes by which the judge sustained himself and his intimate fellowship with adversity—that it was his magnificence of mind which made the squalor of his daily life seem merely a passing phase—but the boy had managed to point a delicate distinction, and Betty grasped something of the hope and faith which never quite died out in Slocom Price's indomitable breast.

"But you always have enough to eat, dear?" she questioned anxiously. Hannibal promptly reassured her on this point. "You wouldn't let me think anything that was not true, Hannibal—you are quite sure you have never been hungry?"

"Never, Miss Betty; honest!" Betty gave a sigh of relief. She had been reproaching herself for her neglect of the child; she had meant to do so much for him and had done nothing! Now it was too late for her personally to interest herself in his behalf, yet before she left for the east she would provide for him. If she had felt it was possible to trust the judge she would have made him her agent, but even in his best aspect he seemed a dubious dependence. Tom, for quite different reasons, was equally out of the question. She thought of Mr. Mahaffy.

"What kind of a man is Mr. Mahaffy, Hannibal?"

"He's an awful nice man, Miss Betty, only he never lets on; a body's got to find it out for his own self—he ain't like the judge."

"Does he—drink, too, Hannibal?" questioned Betty.

"Oh, yes; when he can get the lick, he does." It was evident that Hannibal was cheerfully tolerant of this weakness on the part of the austere Mahaffy. By this time Betty was ready to weep over the child, with his knowledge of shabby vice, and his fresh young faith in those old gutterdemons.

"But, no matter what they do, they are very, very kind to you?" she continued tremulously.

"Yes, ma'am—why, Miss Betty, they're lovely men!"

"And do you ever hear the things spoken of you learned about at Mrs. Perrie's Sunday-school?"

"When the judge is drunk he talks a heap about 'em. It's beautiful to hear him then; you'd love it, Miss Betty," and Hannibal smiled up sweetly into her face.

"Does he have you go to Sunday-school in Raleigh?"

"The boy shook his head."

"I ain't got no clothes that's fitten to wear, nor no pennies to give, but the judge, he loves that as soon as he can make a raise I got to go, and he's learning me my letters—but we ain't a book, Miss Betty, I reckon it'd stump you some to guess how he's fixed it for me to learn?"

"He's drawn the letters for you, is that the way?" In spite of herself, Betty was experiencing a certain revulsion of feeling where the judge and Mahaffy were concerned. They were doubtless bad enough, but they could have been worse.

"No, ma'am, he done soaked the label off one of Mr. Peggie's whiskey bottles and pasted it on the wall just as high as my chin, so's I can see it good, and he's learning me that-a-way! Maybe you've seen the kind of bottle I mean—Peggie's Mississippi Pilot, Pure Corn Whisky?" But Hannibal's bright little face fell. He was quick to see that the educational system devised by the judge did not impress Betty at all favorably. She drew him into her arms.

"You shall have my books—the books I learned to read out of when I was a little girl, Hannibal!"

"I like learning from the label pretty well," said Hannibal loyally.

"But you'll like the books better, dear, when you see them. I know just where they are, for I happened on them on a shelf in the library only the other day."

After they had found and examined the books and Hannibal had grudgingly admitted that they might possess certain points of advantage over the label, he and Betty went out for a walk. It was now late afternoon and the sun was sinking behind the wall of the forest that rose along the Arkansas coast. Their steps had led them to the terrace—where they stood looking off into the west. It was here that Betty had said good-by to Bruce Carrington—it might have been months ago, and it was only days. She thought of Charley—Charley, with his youth and hope and high courage—unwittingly enough she had led him on to his death! A sob rose in her throat.

Hannibal looked up into her face. The memory of his own loss was never very long absent from his mind, and Miss Betty had been the victim of a similarly sinister tragedy. He recalled those first awful days of loneliness through which he had lived, when there was no Uncle Bob—soothed, smiling and infinitely companionable.

"Why, Hannibal, you are crying—what about, dear?" asked Betty suddenly.

"No, ma'am, I ain't crying," said Hannibal stoutly, but his wet lashes gave the lie to his words.

"Are you homesick—do you wish to go back to the judge and Mr. Mahaffy?"

"No, ma'am—it ain't that—I was just thinking—"

"Thinking about what, dear?"

"About my Uncle Bob." The small face was very wistful.

"Oh—and you still miss him so much, Hannibal?"

"I bet I do—I reckon anybody who knew Uncle Bob would never get over missing him; they just couldn't, Miss Betty! The judge is mighty kind, and so is Mr. Mahaffy—they're awful kind, Miss Betty, and it seems like they get kinder all the time—but with Uncle Bob, when he liked you, he just laid himself out to let you know it!"

"That does make a great difference, doesn't it?" agreed Betty sadly, and two piteous tearful eyes were bent upon him.

"Don't you reckon if Uncle Bob is alive, like the judge says, and he's ever going to find me, he had ought to be here by now?" continued Hannibal anxiously.

"But it hasn't been such a great while, Hannibal; it's only that so much has happened to you. If he was very badly hurt it may have been weeks before he could travel; and then when he could, perhaps he went back to that tavern to try to learn what had become of you. But we may be quite certain he will never abandon his search until he has made every possible effort to find you, dear! That means he will sooner or later come to west Tennessee, for there will always be the hope that you have found your way here."

"Sometimes I get mighty tired waiting, Miss Betty," confessed the boy. "Seems like I just couldn't wait no longer—" He sighed gently, and then his face cleared. "You reckon he'll come, most any time, don't you, Miss Betty?"

"Yes, Hannibal; any day or hour!" "Whoop!" muttered Hannibal sotto voce, his breath presently he asked: "Where does that branch take you to?" He nodded toward the bayou at the foot of the terraced bluff.

"It empties into the river," answered Betty.

Hannibal saw a small skiff beached among the cottonwoods, that grew along the water's edge and his eyes lit up instantly. He had a juvenile passion for boats.

"Why, you got a boat, ain't you, Miss Betty?" This was a charming and an important discovery.

"Would you like to go down to it?" inquired Betty.

"Deed I would! Does she leak any, Miss Betty?"

"I don't know about that. Do boats usually leak, Hannibal?"

"Why, you ain't ever been out rowing her, Miss Betty, have you?"—and

there ain't no better fun than rowing a boat!" They had started down the path.

"I used to think that, too, Hannibal; how do you suppose it is that when people grow up they forget all about the really nice things they might do?"

"What use is she if you don't go rowing in her?" persisted Hannibal. "Oh, but it is used. Mr. Tom uses it in crossing to the other side where they are clearing land for cotton. It saves him a long walk or ride about the head of the bayou."

"Like I should take you out in her, Miss Betty?" demanded Hannibal with palpitating anxiety.

They had entered the scattering timber when Betty paused suddenly with a startled exclamation, and Hannibal felt her fingers close convulsively about his. The sound she had heard might have been only the rustling of the wind among the branches overhead in that shadowy silence, but Betty's nerves, the placid nerves of youth and perfect health, were shattered.

"Didn't you hear something, Hannibal?" she whispered fearfully.

For answer Hannibal pointed mysteriously, and glancing in the direction he indicated, Betty saw a woman advancing, along the path toward them. The look of alarm slowly died out of his eyes.

"I think it's the overseer's niece," she told Hannibal, and they kept on toward the boat.

DISCUSSION OF BOND ISSUE BY ASSOCIATION

Enthusiastic Meeting Held in South End Tuesday Night Was Well Attended.

An enthusiastic as well as interesting meeting was held by the South Side Citizens Association on Tuesday night in the chapel in South Third street. There were quite a number of the progressive citizens of this portion of the city present at the meeting, which was called to order by Senator W. E. Miller, President of the association. Mr. Miller stated that he had been petitioned by some 25 members of the association to call the meeting, as there was considerable business of importance on hand to be transacted.

President Miller made a few brief remarks on matters pertaining to all the people of the South End, after which Dennis Lanchan, requested Prof. Hawkins, superintendent of the Newark public schools, to enlighten those present regarding the true condition of the school buildings in the city and the necessity for new buildings, as well as the necessity for the bond issue that is now before the people.

Prof. Hawkins, in an able talk, fully explained the school question and the necessity for the improvements that the board of education is forced, under the law, to bring about. He spoke at some length regarding the cost of a bond issue; he said that the bonds could be met in ten years, and that no taxpayer would see any difference in his taxes. Mr. Hawkins spoke from the standpoint of a thorough school man and purely in the interest of the school youth of the city.

Mr. Hawkins was followed by County Auditor C. R. Riley, who furnished facts and figures that backed up the statements of Mr. Hawkins. Mr. Riley assured those present that if this bond issue carried, it would not increase the present tax levy. His remarks were very convincing to quite a number of the members of the South Side Citizens Association, who had formed the impression that this might mitigate against or injure the prospects of the subway improvement.

Remarks were also made by Messrs. Winn and Donahue of the North Side Improvement Association, who are all enthusiastic for the bond issue.

Hon. James R. Fitzgibbon was next called on by President Miller. Mr. Fitzgibbon, in a few words gave the members of the association his opinions and some good advice, explaining what this improvement meant to the South Side.

Mr. Fitzgibbon was followed by Messrs. Keenan, Sullivan and Broome and Councilmen Muenz, Stasel and Prior, and a discussion on the bond issue was had. It was shown that this bond issue would assist rather than injure the subway proposition.

Senator Miller spoke of the interest that every citizen in the South End had, and has had for years, in this connection. He said that his first thought was that it would be detrimental to the cause of the subway improvement. But with a fine school building in the South End, just as good as the children and teachers had in the other parts of the city, he had formed the opinion that it would not deter, but help in securing the improvements that the people of that part of the city have been so long fighting for.

CONVENTION

Continued from Page 1.)

In favor of fundamental restrictions. The fight, therefore, was really upon the measure of restriction that should be written into the organic law.

While these restrictions have been enumerated, yet the adopted proposal is couched in crude form and in such shape as to give rise to doubt as to whether there is not a conflict in one paragraph of the Legislature is instructed to confer power upon municipalities to limit the number of saloons within their borders, and in another it is set forth that no legislation shall be enacted permitting more than one saloon for each 500 of population in any municipality or township.

The temperance people insist that the arrangement is logical and that the clause simply places a check upon municipalities going too far in the matter of issuing licenses.

Following is the proposed license clause:

License to traffic in intoxicating liquors shall hereafter be granted in this state, and license laws operative throughout the state shall be passed with such restrictions and regulations as the General Assembly may provide, and the General Assembly shall authorize municipal corporations to provide for the limitation of the number of saloons, under general laws applicable thereto; provided that where traffic is or may be prohibited under laws applying to counties, municipalities, townships or residence districts, or other districts prescribed by law, the traffic shall not be licensed in any such local subdivision while any prohibition law is operative therein, and nothing herein contained shall be so construed as to repeal, modify or suspend any such prohibitory laws, or any regulatory law now or hereafter enacted or to prevent the future enactment, modification or repeal of any similar prohibitory or regulatory laws.

"No license shall be granted to any person who at the time of making such application is not a citizen of the United States and of good moral character. No license shall be granted to any applicant who is in any way or manner interested in the business conducted at any other place where intoxicating beverages are sold or kept for sale, nor shall such license be granted unless the applicant or applicants are the only persons in any way or manner pecuniarily interested in the business asked to be licensed, and that no other person shall in any manner whatsoever be in any way interested therein during the continuance of the license, and if such interest of such person be made to appear the said license shall be deemed revoked."

"If any licensee is more than once convicted for a violation of the laws in force to regulate the traffic in intoxicating liquors, the license of said licensee shall be deemed revoked, and no license shall hereafter be granted unless the business for which license is allowed shall be located in the same county or an adjoining county to that in which the person or persons live and reside whose duty it is to grant such license."

"No legislation shall authorize more than one license for each township or municipality of less than 500 population nor more than one for each 500 population in other townships and municipalities."

With the hope of paving the way for the determination of the proposal for the classification of all property for taxation, the tax committee of the constitutional convention today decided to report the plan to the convention without recommendation. Under the plan of the proposal, the convention may leave to the people the alternative of the present uniform rule or a change making possible the classification of property, or

DELEGATES CONSIDER WOMAN'S SUFFRAGE

Columbus, March 6.—With the galleries packed by suffragettes and anti-suffragettes, who elbowed their way unceremoniously and broke cratic to exclude one-half of the people from the convention today began consideration of woman's suffrage.

B. Kilpatrick of Trumbull county, chairman of the equal suffrage committee, took the floor in advocacy of extending the ballot to women. He denounced as undemocratic the exclusion of one-half of the people from the ballot and placed women on the same footing with men by pointing out that 300,000 of them in Ohio worked for their own living, in common with the men.

Stanley Bowdye of Hamilton county, who led the opposition to the measure, asked Kilpatrick if he could tell him what percentage of the women in the state wanted suffrage. Kilpatrick replied that he could not, but that if only one woman wanted it, it was tyrannical to withhold it.

Bowdye asked if Kilpatrick did not find incongruity in a woman being president of the United States or chief justice of the supreme court. "Not if a majority of the electors saw fit to elect them," replied Kilpatrick.

"Do you see any incongruity in going to war on the vote of a woman senator who cannot go?" asked Bowdye.

"She who produces a soldier is greater than the soldier," he replied in response.

Kilpatrick was asked to explain the expression in the federal constitution, "to insure domestic tranquility," and reconcile it with equal suffrage.

Mrs. Josephine Davis, while at work at the Hulshizer home in East Church street was overcome by gas and Chris Brothers & Jones' ambulance was called and she was removed to her home.

Mrs. Davis was employed by the Hulshizer family to do some domestic work and while engaged in her duties about the kitchen she was suddenly seized with a violent illness. A physician was summoned and found that she had been overcome by gas supposed to have come from a defect in the pipes about the stove.

The ambulance was called and Mrs. Davis was taken to her home in Manning street, where it is thought she will quickly recover.

DOES NOT MEAN SINGLE TAX

A great many people believe, and
there are reasonable grounds for such
opinions, that the proposed Constitu-
tional amendment to permit classifica-
tion of property for taxation is a
move in the interest of the single
tax. Governor Harmon brought about
an enforcement of the constitutional
provision which requires all property
to be taxed at its true value in money,
and the results are satisfactory to so
large a majority of the property own-
ers, that changing that rule for plac-
ing effects on the tax duplicate would
bring forth strenuous protests from
the people.

Judge R. M. Dittiey of the state tax
commission, spoke of this subject be-
fore the taxation committee of the
constitutional convention as follows:
Recently: Classification may be se-
cured in either of two ways—by di-
rectly incorporating in the constitu-
tion a provision permitting classifica-
tion, or by placing no restriction upon
the general grant of legislative power.
If the subject of taxation is left
wholly within the discretion of the
legislature, or if it be permitted to
classify property and levy taxes at
different rates, there will be a contin-
ual struggle for special advantage,
and the active, the vigilant, the dili-
gent, who are always looking out for
their own interests, will shift their
burdens to the shoulders of those
least able to bear them. It would be
class legislation of the worst kind.

"The unrest and discontent among
our people is due largely to the un-
equal distribution of wealth. So long
as wealth is unequally distributed its
possessors should contribute equally,
each according to his ability, to the
public expense. I do not believe that
the taxation of moneys and credits
would drive capital out of the state.
In my opinion, this is a bugaboo."

Governor Harmon, in his message
to the Ohio general assembly which
sat in 1910, asked that the land own-
er, especially the farmer and home
owner, be justly dealt with in taxa-
tion affairs, and he also made it
plain that he was opposed to the
single tax. No other governor in the
history of the state did so much, as
did Governor Harmon, to take from
the shoulders of farmers and home

TRUSTS, TARIFF AND CAMPAIGN FUNDS

The House Steel Trust Investigating committee has made public some
of the findings of its expert accountant, Farquhar J. McRae, who exam-
ined the books and minutes of the United States Steel Corporation, J. P.
Morgan & Company, it was reported, received approximately \$70,000,000.00
cash profits for organizing the big steel combine. It will be remembered
that Theo. Roosevelt, during a critical period of his public life, declared
that he was afraid of alienating the J. P. Morgan interests, which had
always been friendly.

The net profits for the first nine years of the steel trust's existence
were more than one billion dollars, or \$1,029,685,359, to be exact. That is
equal to a profit of approximately \$13. a ton on finished product.

It is needless to state that there was a high protective tariff during
this time, for the people know there was.

It is needless to call attention to the fact that the steel combine was
organized in violation of law.

Every one knows also that the steel trust was organized during a
Republican national administration, and that the Democratic party has not
been in power during its existence.

The record of the funds of the Democratic and Republican national
campaign committees of 1896, 1900 and 1904 is illuminating, when used in
connection with the earnings of the steel trust. It would be even more
illuminating if earnings of the other trusts organized during Republican
National administrations could be given.

The data from campaign funds show that the Republican party re-
ceived full value for its protection.

owners, an unjust portion of the tax
burden they had been bearing for
years.

In his message of January 3, 1910,
the Governor referred as follows to
the method of valuing property for
taxation: "The constitution points
out the only road to fairness. And
it is the only safe road for the great
majority of tax payers. All property
of every sort should, therefore, be
valued by the rule ordained by the
constitution. The results of valuing
otherwise have not been happy with
respect to real estate, especially farms
and ordinary homes. These have al-
ways paid more than their fair share
of taxes. But the owners of such prop-
erty will not and should not submit
to this valuation unless all other prop-
erty is treated in the same way. If
this be done the glaring inequalities
which now disgrace the duplicate will
be avoided; and it can be accomplish-
ed by no other means."

GENTLE ANNIE.

The time approaches, Mr. Man,
when you will take the sprinkling
can, and rake and spade and hoe,
and blow yourself for picks of seeds
which will produce all kinds of weeds
when they begin to grow. It is a
strange, noteworthy thing, that with
the coming of the spring man yearns
to delve the ground to labor with
the fragrant soil; as Father Adam
went to toil, to fuss and potter
round. He dreams of finer cabbage
heads and cucumbers and onion beds
than ever man has seen; and he will
raise the finest slaw and succotash,
both boiled and raw, that ever wore
the green. Experience might teach

him that his visions will be broken
flat, his garden be a fake, that all
the harvest he will get will be a rip-
pling rill of sweat and fifty kinds of
ache. But man forgets his former
woes when gentle Annie comes and
blows upon her fairy pipe; once more
the luscious soil he digs and plants
again his thing-a-majigs, his cantil-
lions and trips. We've civilized the
human race until there scarcely is a
trace of old primitive man, save when
the spring-time makes us ache to tin-
ker with the hoe and rake and spade
and sprinkling can.

HARMON AND UNDERWOOD AS CANDIDATES

Idea is Gaining Headway and Demo-
cratic Members of Senate and
House Believe the Ticket
a Good One.

Washington, March 5.—For presi-
dent, Judson Harmon of Ohio. For
vice president, Oscar W. Underwood
of Alabama.

This is the ticket that many Demo-
crats of the house are talking of now.
There are some Underwood sup-
porters so enthusiastic that they
have started an Underwood boom
for the presidency.

The Harmon-Underwood idea is
gaining headway and there are many
house and senate Democrats who be-
lieve that this ticket would be invin-
cible.

The Underwood rebuke of William
Jennings Bryan in the last session of
congress went a long way toward
eliminating that three-times candi-
date from the field of possibilities for
the campaign of 1912. The manner
in which the former idol of the De-
mocracy was dethroned in the house
by an Underwood speech is regarded
as one of the most significant politi-
cal events of recent years.

The house membership has always
been divided as to Bryan. The Ne-
braska leader has had his staunch
supporters, like Representative James
of Kentucky and Representative
Kitchen of North Carolina. On the
other hand, he has bitter political op-
ponents in the house, notably Repre-
sentative Frank Clark of Florida, who
has insisted all along that it was
time for Democracy to get itself
loose from the influence and the
domination of that oft-defeated
leader.

A good portion of the house mem-
bership stood by Bryan in the last
congress when he demanded that the
ways and means committee should
put raw wool on the free list in its
revision of Schedule K. The Bryan
and anti-Bryan men went into the
Democratic caucus and the latter
won out. Representative Underwood
and his faction had their way and a
20 per cent ad valorem duty was lev-
ied on raw wool under the terms of
the house bill.

Bryan accepted this defeat grace-
fully, although he came out in an ed-
itorial in his paper declaring that
the Democratic party was marching
to defeat under the flag of protec-
tion. The split in the party at that
time was characterized as the initial
step taken by the Democrats to elim-
inate Bryan as a political factor.

Then came Bryan's rebuke of Un-
derwood, which seemed to be the last
straw, so far as the attitude of the
house was concerned. Because the
ways and means committee, under
the leadership of Representative Un-
derwood, had not first undertaken a
revision of the iron and steel sched-
ules, Bryan charged in an authorized
interview that Underwood's personal
interests in the steel industry in his
home town, Birmingham, Ala., had
prompted the delay in revision. Dur-
ing a debate on the free list bill,
which put steel wire on the free list,
Representative Underwood told the
house that a part of his fortune was
invested in the iron industry. At that
time the steel trust, at work on a
plant in Birmingham, threatened to
shut down work unless Underwood
backed down in his stand that wire
should be put on the free list. Mr.
Underwood stood firm and declared
that he would not be dictated to by
the trust.

The admission that Underwood
had money invested in the iron and

steel industry prompted Mr. Bryan
to again make pertinent observa-
tions as to how the Democrats of the
house ought to go about the work on
the tariff revision. He practically charg-
ed that Underwood was standing in
the way of a revision of the iron and
steel schedules because such a revision
might hit the Alabama leader's
pocket.

In a dramatic speech on the house
floor, the chairman of the ways and
means committee declared that Bry-
an's charges were absolutely false,
and he challenged any one in the
house to stand up and say that he
(Underwood) had not urged the
ways and means committee to take
up the iron and steel schedule.

Underwood's speech resulted in an
ovation to the young Alabama leader
and an overthrow of the Nebraska
man by the house. The house cheer-
ed Underwood for several minutes,
and this demonstration of confidence
in the integrity of Underwood mark-
ed plainly the parting of the ways
between Bryan and that part of the
party represented by the Democrats
of the house.

Underwood's presidential boom was
born that day. Later the Democrati-
c politicians began to suggest that
it might be better for Underwood to
have second place on the ticket, in-
asmuch as Judson Harmon had been
a presidential possibility for some
years prior to the time that Mr. Un-
derwood sprang into prominence.

The Harmon-Underwood ticket
sounds good to the Democracy. Many
Democrats believe that the Harmon-
Underwood combination would beat
any yet suggested. If the conven-
tion decided that success of the party
would be assured with this ticket,
Mr. Underwood might take second
place.

TONA VITA BUILDS UP RUN-DOWN PEOPLE

Physicians Have Great Suc- cess With Tonic in This Country.

When people of wealth become de-
bilitated and run down in health
they go to high priced sanitariums
and health resorts to be built up
again. But what about the thou-
sands of debilitated, nervous men and
women with no vitality or ambition,
who have neither the time nor money
to spare for such luxuries as sanita-
rums? If you are in this miserable
condition, read with care the follow-
ing statement by M. F. Mann, liv-
ing at 53 Good avenue, Buffalo,
N. Y.

"I have had indigestion and been
all run down for ten years. I could
not eat anything at times and was
always constipated. My nerves were
out of order and I had bad head-
aches. I believed I had kidney trou-
ble, too, as I had dull pains in my
back much of the time. I was easily

excited and often when I couldn't
eat and had a nervous attack I would
suffer severe dizzy spells.

"I heard so much about the new
tonic, 'Tona Vita,' that I decided to
give it a trial and I feel like a dif-
ferent man. I am strong in every
way. I sleep well, can eat anything
and my nerves are as steady as can
be. I have gained four pounds in
the last ten days. I believe 'Tona
Vita' is the best medicine on
earth."

"Tona Vita" was introduced in this
country by a number of physicians
scarcely a year ago. The tonic has
proved the biggest success of any
medicine ever before sold to the
public.

If you are debilitated and run
down, don't allow this miserable
condition to last a day longer. Let
Tona Vita build you up and bring
back your health. If it fails your
money will be returned by our agent
in your city.

MILLION WOMEN VOTE THIS FALL FOR PRESIDENT

It will come as a surprise to many
people who have scoffed at woman's
suffrage as the mere whim of a few
people and a contingency quite re-
mote, to know that actually nearly a
million women in this country will
have a right to vote for president
next fall. It is no longer a question
whether this country will give the
ballot to women. American women
already have the ballot—the women
of six states. As a principle, the
thing is settled that American wom-
en can have the ballot—if they want
it. Its acquisition by the women of
the other states depends on whether
or not they want it.

The estimates of the number of
women who are already entitled to
vote range between eight hundred
thousand and two million, but a con-
servative view places it at about a
million. Not all of them will vote,
but probably a larger proportion of
them will go to the polls than of a
miscellaneous million of men, now at
least while the novelty still accom-
panies the privilege. A writer in the
New York Post notes that if these
women voters, putting the number
at only eight hundred thousand, vot-
ed solidly, they might decide the
presidency. They will not vote soli-
dly, however. "Women are human
beings before they are women, and
as human beings they have shown
that they have divergencies of opin-
ion, of faith, and of principle, just as

men have. About the most that can
be said as generally indicative of wo-
man's solidarity in politics is that
they have a tendency to break away
from party lines, to choose the man,
rather than the party."
The Post writer sees no cause for
alarm. "In their politics, as in their
industrial economies, they have un-
consciously made another proving of
the biological law under which the
females of all species operate as the
upbuilders and conservers of life. Their
political activity has been al-
most universally constructive, and
the results of that activity have been
almost uniformly reflected in legis-
lation directly related to the welfare
of the home and family—child labor
laws, school laws, and industrial laws
that concern women." Any sugges-
tion that women are less worthy of
the ballot than men or that their
vote is likely to be less worthily cast
than that of men is ignorant and dis-
creditable. — New Bedford Evening
Star.

SOCIETY

A few friends very pleasantly surprised Miss Creta Priest, last Wednesday evening at her home in Fourth street in honor of her eighteenth birthday anniversary. The evening was spent in music and cards and at a late hour delicious refreshments were served.

The guests were Misses Florence and Eva Harter, Frances McDermott, Hazel Patterson, May Duerr, Ruth Johnson and Creta Priest; Messrs. Ralph Lipscomb, George Smeltz, Edward Couch, Harry Haynes, Lloyd Allen, David Denelsbeck, Ernest Claggett and Clyde Priest. The hostess received many beautiful gifts of remembrance from her friends.

Miss Lillian Channell most delightfully entertained the members of the Friday Afternoon Art Club at her home in Hanover on last Friday. The hours were spent in sewing and music; after which a dainty luncheon was served the following members: Mesdames D. O. Roberts, C. H. Forry, W. L. Evans, C. W. Cummins, Frank Tiebout, Robert Fleming and daughter Martha, Jay Conger, Robert Cartal and daughter Marjorie, Jesse Letherman, Mary Hesslin, Kathryn Fleming, Misses Elizabeth and Anna Roberts, Margaret and Carolyn Arndt, Nina Cartal and the hostess.

Mrs. Frank Helmke entertained the Baptist choir on Monday evening. Various games and music constituted the chief amusements of the evening. A most enjoyable time was had by all and the evening was concluded with a dainty luncheon.

Those present were: Misses Margaret and Sarah Bennett Ruth and Paul Weaver, Martha Lund, Gladys Thompson, Mrs. Dewar, James Arnen-

trout, Mr. and Mrs. James Loughridge, Winona Pickering, Lucille Vell, Lulu Swartz, and Lottie Simpson.

The Juvenile Aid society will be entertained by Mrs. Mary Miller at the Business Girls Club Thursday evening, at 7:30 o'clock.

The Unity Reading Circle was entertained by Mrs. C. G. Burch on Tuesday afternoon at her home in North street. The following program was given:

Quotations—Helen Hunt Jackson.

Merchant of Venice, Acts, III-IV-V.

Leader, Mrs. Bockoven, assisted by Mrs. Coulter, Mrs. Clunis, Mrs. Mill-

Character Sketch of Shylock—Mrs. Bell.

Character Sketch of Portia—Mrs. Rhoads.

Critic—Mrs. McGough.

Following the program a short business session was held and Mrs. Burch served to the club members and three guests a delicious repast of three courses.

The Investigators club was entertained Monday afternoon at the home of Mrs. W. H. Weaver in Eddy street.

The program given was in accordance with the calendar:

Woman, As a Wage Earner—Mrs. Eugene F. Ball.

Current Events—The Club.

Vocal Diet, The Wood Bird's Song.

Misses Margaret Bennett and Ruth Weaver.

The meeting adjourned to meet with Mrs. Fred O. Fulton, March 11th.

The members are requested to take the 1:55 Granville car.

Miss Hazel Altshool entertained informally on Tuesday evening, a few friends of Miss Ann Zollars of Canton, O., who is the guest of Miss Margery Collins. Bridge was the game selected for the evening.

The following were the players: Misses Ann Zollars, Margery Collins,

Frances Collins, Frances Wright, Annette Besuden, Messrs. Walter Brown, Duane Fulton, George Upson, Carl Heck, Lawrence Wilson, and Edward Kibler.

Miss Lillian Hirst entertained the Sewing circle at her home Monday afternoon. Sewing and contests were the features of the afternoon, after which the election of officers was held and resulting as follows: President, Mrs. Fred Orr; secretary, Miss Mabel Wolfe; treasurer, Miss Margaret Taylor; organist, Miss Lillian Hirst; correspondent, Miss Maude Parr; flower committee, Mrs. Leon Wolfe, Mrs. William Beall and Miss Mae Stevens and Miss Osburn. The circle will hold a banquet Tuesday night, March 12 at the home of Mr. Wm. Beall.

One of the most delightful social events of the week was that held at the home of Mr. and Mrs. Gideon Smith, one and one-half miles southeast of the city on Blue Jay road, Monday night in form of a surprise on their son Roy, honoring his 15th birthday anniversary, the surprise being a complete success. The evening was spent in games and Clara Taylor was awarded first prize, Leonard Richardson and Helen Evans were a tie for first in score call.

At a late hour a dainty collation was served to the following guests: Mr. and Mrs. Bedford Dumm, Mr. and Mrs. Gideon Smith, Mrs. Channing Thompson, Misses Lois Wolfe, Helen Watson, Edith Thompson, Edna Watson, Goldie Mossman, Leota Jeffers, Madge Price, Lou Smith, Helen Evans, Nellie Mossman, Gertrude Wheeler, Florence Duthmer, Clara Taylor, Florence Luthier, Mary Ulery, Hazel Taylor, Mary Darnes, Hazel Darnes, Lizzie McKnight, Ray Jeffers, Stanley Wolfe, Leonard Richardson, Chester Smith, Lennie Smith, Wayne Dumm, Balcom Wolfe, Jack Luther, Cary Wolfe, Stanley McKnight, Charles Smith, Carl Smith, Ralph Ulery, Clint Thompson.

WELCH-VANATTA.

An announcement which will cause surprise to their many friends is that of the marriage of Miss Bessie Vanatta and Mr. Frank Welch on Wednesday evening, February 25th, at the home of Rev. W. D. Ward. The bride is the second daughter of Mr. and Mrs. Chas. L. Vanatta and is well known among her circle of friends, while the groom is a son of Mrs. Rose Welch, who is employed as a molder at the Wehrle foundry. The young couple were accompanied by Mr. and Mrs. H. Wayne Welch, brother and sister of the bride and groom. They are at home for the present to their many friends in Mahoning street.

WEAVER-CONN.

The following account of the Weaver-Conn wedding is taken from a Los Angeles exchange of February 22, 1912:

The interior of the University Methodist church looked beautiful in its decorations of palms, ferns, smilax and white roses Thursday evening when Miss Jennie Jean Conn became the bride of Mr. Harry Everett Weaver.

As the wedding guests assembled Mr. William E. Strobbridge, presiding at the organ, rendered the following musical program: (Guilman) Marcelle Reigseuse, (D. Eury) Reverie; (Le-mere) Handantino, Chant du Bonheur (Kindes) Idyl in D. Mrs. Edith Lytle. Boethe then sweetly sang Spring Song from Mendelssohn.

Promptly at half past eight o'clock Lohengrin's Wedding March pealed forth from the organ and the bridal party entered. First came the ushers Messrs. Will Willis, Harley Henderson, and Thomas Oughton, followed by the bridesmaids, Misses Gertrude Robertson, Gladys Blessington, and Ione Weaver, all wearing pink satin gowns, silver caps and carrying pink Killarney roses.

Proceeding the bride came the matron of honor, Mrs. Willat M. Foster, sister of the bride, wearing pink marquisetta over pale blue satin and

carrying a shower bouquet of white roses. The bride looked beautiful in a gown of white duchess satin with trimmings of rose point lace. She wore a full length veil which was caught in her coiffure by orange blossoms and carried a shower bouquet of bride's roses and lilies of the valley. They were met at the altar by the groom and his best man, Dr. William M. Foster, where the ring ceremony was performed by the Rev. James Allen Geisinger, pastor of the church. For the brides retrocession, Mendelssohn's Wedding March was played as the bridal party left the church.

Mrs. Weaver is a daughter of Mr. and Mrs. John Brown Conn of Newark, Ohio, where the bride spent her girlhood days, graduating from the Newark High school in the class of 1906. The past three years she has spent in this city. Mr. Weaver is the son of Mr. and Mrs. P. E. Weaver, 311 Pavilion Place, and is manager of the Frank B. Long Piano company of this city.

They left for a short wedding trip and upon their return will reside in their new bungalow, which Mr. Weaver has prepared for his bride at 533 West Forty-second Place.

MILADY'S TOILET TABLE

By Mme. D'AMILLE

There are simple home treatments that keep the hair and complexion young looking. Dry shampooing cleans the scalp and hair and makes the hair grow. Just put a cupful of cornmeal in a fruit jar and fix with it an original package of therax; sprinkle a little on the head and brush out. It brushes out easily and leaves the hair clean, bright, wavy and rich in color. To keep the face youthful and fair, make a simple lotion by dissolving an original package of mayatone in a half pint of witch hazel and rub over the face, neck and arms every morning. Your complexion will soon be smooth, clear, satin-like and free from blemishes.

Wild hairs or fuzzy growths can be made to vanish quickly by applying the telatone paste. Mix enough powdered telatone with water to cover the hairy surface; apply and after two or three minutes rub off, wash the skin, and the hairs will be gone. Chaps, cold sores, pimples, eczema and skin eruptions, disappear if you rub Mother's Salve into the affected surfaces before retiring. It quickly heals sores, cuts, burns, scalds, etc. It is antiseptic, as well as healing and lessens danger of blood poisoning.

He was sent to this city by the Moore circuit on account of a general transfer of managers of the different houses and also on account of his eminent fitness to manage a theatre in a city the size of Newark. He is a pleasant, agreeable young man, and there is no question but that he will increase the high efficiency of the local playhouse.

The Coshocton Times, in writing of the change, says: "While the hosts of friends which Mr. Norrington has made during his short stay here, regret to see him leave the city, he goes with the best wishes of every acquaintance. Mr. Norrington during his stay in Coshocton has done much to build up a support for the theatre, and the Newark house is indeed fortunate to secure him as manager."

SHATTERED NERVES

Of Brooklyn Girl Were Soon Rebuilt by Vinol.

Did you know that nervous conditions due to overwork, mental strain and worry, or run-down condition of the system, can be cured?

"No one can realize what it means to have shattered nerves unless they have been through this trial," says Frances Graban of Brooklyn. "For the last two years my nervous system seemed to be completely broken down and suffering. Vinol has made me well again. I have found it the greatest nerve and body builder on the market and there is nothing equal to it. I recommend Vinol to all nervous women and men."

This delicious cod liver and iron preparation without oil (Vinol) is so helpful in nervous conditions because it enriches the blood and builds up the whole body, thus nourishing and strengthening the nerves. We guarantee Vinol to give you satisfaction, refunding the money if it does not. F. D. Hall, druggist, Newark, Ohio.

DIAMOND RING PRESENTED TO J. T. LUSCOMBE

The following from the Bucyrus Telegraph tells of the presentation of a diamond ring to John T. Luscombe, retiring master mechanic of the T. & O. C. road at Bucyrus, formerly machine shop foreman at the B. & O. shops in Newark.

John T. Luscombe, who has been the master mechanic of the Toledo & Ohio Central railroad for the past three and one-half years, closed his work with the company today. At the close of work the shop employees presented Mr. Luscombe with a beautiful diamond ring. On behalf of the employees, the ring was presented to the retiring master mechanic by Charles B. Bowersox, general foreman of the shops.

Mr. Luscombe responded in a very hearty manner and was much surprised over the beautiful gift. A

WOMAN'S REASON FOR SUFFRAGE

Equal suffrage for men and women. Women need it, men need it, the state needs it. Why? Because women ought to give their help, men ought to have their help, and the state ought to use their help.

Because women must obey the laws just as men do, they should vote equally with men.

Because women pay taxes just as men do, thus supporting the government, they should vote equally with men.

Because women suffer from bad government just as men do, they should vote equally with men.

Because mothers want to make their children's surroundings better, they should vote equally with men.

Because over 7,000,000 women in the United States are wage workers and their health and that of our future citizens are often endangered by evil working conditions that can only be remedied by legislation, they should vote equally with men.

Because women of leisure who attempt to serve the public welfare should be able to support their advice by their votes, they should vote equally with men.

Because busy housemothers and professional women cannot give such public service, and can only serve the state by the same means used by the busy man—namely, by casting a ballot, they should vote equally with men.

Because women need to be trained to a higher sense of social and civic responsibility, and such sense develops by use, they should vote equally with men.

Because women are consumers and consumers need fuller representation in politics, they should vote equally with men.

Because women are citizens of a government of the people, by the people and for the people, and women are people, they should vote equally with men.

A NEWARK WOMAN.

HOW TO "SHED" A BAD COMPLEXION.

It's foolish to attempt to cover up or hide a sallow complexion, when you can so easily remove the sallowness, or the complexion itself. Rouge and the like on a brownish skin only emphasize the defect. The better way is to apply pure mercolized wax—the same as you would cold cream—putting it on at night, removing it in the morning with warm water, following with a dash of cold. The effect of a few applications is simply marvelous. The half-dead cuticle is absorbed by the wax—painlessly, gradually, in tiny, imperceptible particles—revealing the beautiful, velvety, white skin beneath.

No woman need have a sallow, blotchy, pimply or freckled complexion if she'll just go to the druggist's and get an ounce of good mercolized wax and use as suggested.—Woman's Realm.

HEART AND HOME TALKS

BY BARBARA BOYD

A Work Some Girls Are Doing In Lent

THOSE who observe Lent not only practice certain self-denial, but often they like to take up some specific work appropriate to the season. Calling upon some sick person every day, making clothes for the needy, visiting the poor, reading to the blind, all these things have been done during the Lenten season from time immemorial. And they have done much good. But they are rather haphazard. They are often the result of personal initiative, and so do not seem quite so well directed or purposeful, as a work many are taking up this year, as a Lenten activity. This is the social service work that is being inaugurated in connection with the free dispensaries of many hospitals. In one of the large cities, the season's debutantes have banded together and offered to help in this field.

In some cities, this work has been going on for several years. In others, it is just starting. And in many, it has not yet begun. In time, however, it will no doubt become a part of all hospital practice. It grew out of the free dispensary work, for those in charge of this noticed that the help given seemed to bring only temporary results, and that in many cases, those assisted were soon back. It was resolved to follow these people into their homes, and find out what were the conditions there that worked against recovery. At first, volunteers only, did this work, though now, trained social workers are more and more taking it up. But the field is so tremendous that it will be a long time before volunteers will not be needed.

As a work for those who want something of this kind to do during Lent, nothing could be better. The work is sent immediately where there is a need, and there is an organization back of her with all that is necessary to make her work successful. Not only this, but there is expert knowledge to know what is needed and what is the best thing to be done. One is aiming directly at a mark. No effort or ammunition is wasted. Nor is the case dropped until all that can be done is done. And too, one feels that he is working with an army, not alone, and perhaps blunderingly, or with few weapons.

So that this is a splendid work for those who wish to take up something of charitable nature during Lent. And for the society bud it is more than this, for it will make her realize, as perhaps she never has before, how the other half lives. She will come to see that life is not all dances and flowers and pretty dresses, come to see it in a way that will build this knowledge into her character. And she will be a broader-minded, more thoughtful girl because of this experience. She will have a better comprehension of life, and of what is required of her to worthily play her part in it.

NEWARK COUPLE OBSERVES 60TH WEDDING ANNIVERSARY

Mr. and Mrs. John Wharton of Holiday Street, Who Were Married in Guernsey County Sixty Years Ago.

Mr. and Mrs. John Wharton of 22 East Holiday street, are today quietly celebrating the sixtieth anniversary of their wedding. Both Mr. and Mrs. Wharton, while well advanced in years, are enjoying splendid health and are happy on this, the sixtieth anniversary of their wedding day.

The couple was married in Guernsey county in 1852. Mrs. Wharton was formerly Miss Mary Jane Sigman. The greater part of their married life was spent at Hebron where Mr. Wharton was for years employed as sexton in the cemetery.

In recent years they have lived in Newark, where they have enjoyed the declining years of a happy wedded life, among their children, grand children and great grand children.

Mr. and Mrs. John Wharton of Holiday Street, Who Were Married in Guernsey County Sixty Years Ago.

Mr. Wharton enlisted twice in the service of the Federal government during the war of the rebellion, serving in the 76th regiment O. V. I. and took part in all the engagements participated in by this regiment.

Four sons and one daughter are still living, they being Henry Wharton of Clay Lick, Joseph and Mack of Newark, and Mrs. Joseph Lees, also of Newark.

Thirteen grand children and nine great-grand children have aided in brightening the later years of the aged couple.

Mrs. Wharton celebrated her 78th birthday anniversary February 25. Mr. Wharton his 84th anniversary March 1, and now they join in the greater event, the sixtieth wedding anniversary today.

NEWS OF VARIOUS OHIO CITIES

Chillicothe: Eddie Starr and Tiffin Powell, two colored boys, broke up a meeting at the colored Baptist mission Monday night when they blew great quantities of cayenne pepper into the air of the mission room as the congregation met in prayer. Several narrowly escaped being injured in the rush for the exits.

East Liverpool: Mayor Marshall has warned parents that they must write orders for tobacco and cigars when their children are sent after the same. "No verbal order goes," says the mayor.

Delaware: Mrs. C. D. Miller, who was arrested following an investigation of the starving condition of the hogs and cattle at her home near Sunbury, must hire a boy and buy feed to keep her stock alive, according to a court decision. She was fined \$50 and costs. Mrs. Bent, another defendant, was dismissed from custody, she being past 80 years of age.

Dennison: James LaTourette, age 21, was bitten by a dog believed to have been suffering from rabies. The dog was killed and an examination of the head revealed that it suffered from rabies. LaTourette was sent to a Pasteur institute for treatment.

Sandusky: George W. Hackett has been appointed receiver for the Castalia Portland Cement Co. Bert D. Smith, a coal dealer of this city, filed the application for a receiver, claiming he had a bill of \$1263.70 against the company which he could not collect.

Cambridge: The city council is considering a proposition to grant a franchise to Pittsburg parties to operate a natural gas company in this city.

Akron: Chas. M. Smith, mayor of Kenmore, a village near here, has refused to resign before April 1, the date named in his resignation which was filed with the city clerk.

WELL KNOWN MEN

Mr. John A. Wintermute, merchant tailor, has built up a business that is widely patronized not only in the city but by residents of neighboring cities. Mr. Wintermute's place of business is on the second floor of the Lansing

block in North Park Place, where he has installed all the fixtures of a modern tailoring establishment and where he displays a large stock of the latest fabrics and designs in men's suitings. Mr. Wintermute, who resides on Hudson avenue, has long been a resident of the city and his wide business experience in Newark and his interest in all civic projects have identified him with the most progressive business men of Newark.

HEART TROUBLE
CAUSED DEATH
OF A MOLDER

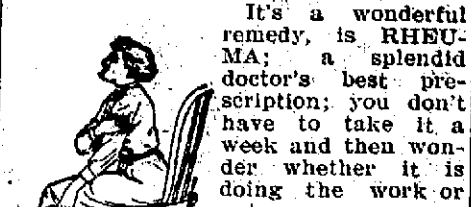

Fred Burroughs, a molder, from New York, arrived here Tuesday night, and it is reported that he was about to go to work here, where he had several old time friends. At an early hour Wednesday morning, while on Union street, he suddenly collapsed and died instantly, death being due to heart trouble.

He told a friend Tuesday evening that he had been thrown from a freight train near Sidney or Tiffin, and that he had been badly shaken up. The body was taken in charge by Undertakers Criss Bros. & Jones and prepared for interment. It is learned that he is a Mason and that he has about \$150 coming to him from the International Association of Molders. He has several children living in New York City and in different parts of the country and Coroner Wiyarch and the undertakers are endeavoring to get in communication with some member of his family. Thus far no word has been received from any of them and no arrangements have been made for the funeral.

MRS. NANCY ALABAUGH.
Mrs. E. L. Starr of Elmwood avenue, received word from Mr. Vernon advising her of the death of her sister-in-law, Mrs. Nancy Alabaugh. The funeral will be held at the late home Thursday.

RHEUMATISM
EASY TO CURE

T. J. Evans guarantees RHEUMA to banish rheumatism or money back. That's why he sells so much of it. People are coming for miles to get it, because they know it quickly stops the torturing pains, relieves at once the intense aching and drives the poison from swollen joints.

It's a wonderful remedy, is RHEUMA; a splendid doctor's best prescription; you don't have to take it a week and then wonder whether it is doing the work or not. Start to take it today—RHEUMA won't waste any time; it will start to act on kidneys, liver, stomach and blood today, and tomorrow you'll know that the poisonous uric acid is quitting you forever. Use RHEUMA for rheumatism, sciatica, lumbago, arthritis, neuralgia and kidney disease. It surely does the work—bottle for only 50 cents. Mail orders filled by RHEUMA Co., Buffalo, N. Y.

COURT NEWS

Motion Filed.
In the case of Robinson & Co. vs. Ross Boyer and others, the plaintiff has filed a motion to require the defendants to make their answer and cross petition more definite and certain.

Circuit Court.
The case of Isalah Shimmell vs. Nesbit H. Cole et al. was heard to the circuit court Wednesday and submitted. The plaintiff brings the suit asking for the cancellation of a deed to real estate in this city, on the ground of failure of consideration.

Edward Crawford vs. Geo. Kirk, argued and submitted. The plaintiff seeks to recover damages on account of a fire which he claims was started by defendant, negligently, and which spread to his premises.

J. J. Fullerton vs. B. G. Smythe, leave given to substitute bill of exceptions, which has been lost.
